**Subject:** Park Place Water Data Now on InfoPage  
**Date:** Thursday, May 15, 2014 4:04:03 PM

---

OEA,

There is an InfoPage announcement posting today which links you to the Washington Holdings sampling plan and analytical results from the Park Place remodeled floors. The below may be a hot link for Drinking Water Quality in Park Place too.

I accompanied RGA (the WH Contractor) yesterday on their sampling of the Fitness Center drinking fountain, all the 1<sup>st</sup> floor sources (PERC's new space), and additional sampling points on 16. Those verbal results are expected on Monday. When we get the lab results we will post those too.

OEA and the Health & Safety Committee are working on a sampling event for the 8 EPA occupied floors which the landlord will not be sampling (Floors 7 to 13 plus 18). That will include 20 drinking fountains, 8 kitchen sinks and ice from 8 refrigerators. That event is expected to take place the early morning of May 28. If you are interested in assisting us in that sampling, please let me know. We would meet here about 5:45 am and if we have two teams of 3 persons we would be done by about 7:00 am.

Let me know if you have any questions.
